Privilégiez la réparation ou le don de votre appareil !

Nous conseillons de ne pas trop charger votre barbecue en bois ou en charbon de bois. En effet, la cuve étant assez volumineuse, il n'est pas nécessaire de mettre du combustible à ras la grille de cuisson. Il est préférable de recharger régulièrement le foyer pour une cuisson parfaite. Si toutefois, la tôle de votre barbecue chauffe et change de couleur cela est tout à fait normale. Ce changement de couleur n'altèrera en rien la qualité de la tôle, ni les fonctions de votre barbecue.
