(INCLUDED)

1 Phillips
screwdriver (PH1)

1 hammer drill / rotary
hammer

1 concrete
drill bit
Ø10

1 stepladder / person

1.2 Safety instructions

To ensure the safe assembly of your product, certain rules must be followed:

- Wearing personal protective equipment is strongly recommended (gloves, safety shoes, goggles, etc.)
- Keep children away from the construction site
- Choose a suitable location for mounting your product (flat, hard ground allowing for solid anchoring, not subject to strong winds)
- Ensure that the fixing points do not coincide with cable passages, conduits or other pipes.
- In the case of installing a pergola, provide a ground with a 1% slope to allow for the drainage of rainwater.
- Do not attempt assembly in adverse weather conditions (rain, wind, snow, etc.)
- In case of bad weather (wind, rain, snow) it is recommended to keep the blades in a semi-open position to promote airflow and prevent snow accumulation.

1.3 Unpacking the product

When opening the boxes, be careful not to use a box cutter or any blade that could damage the product. The boxes are labeled with the components inside. Make sure you have all the items listed in the components list and that they are correct before you begin assembling your product.

1.4 Maintenance Tips

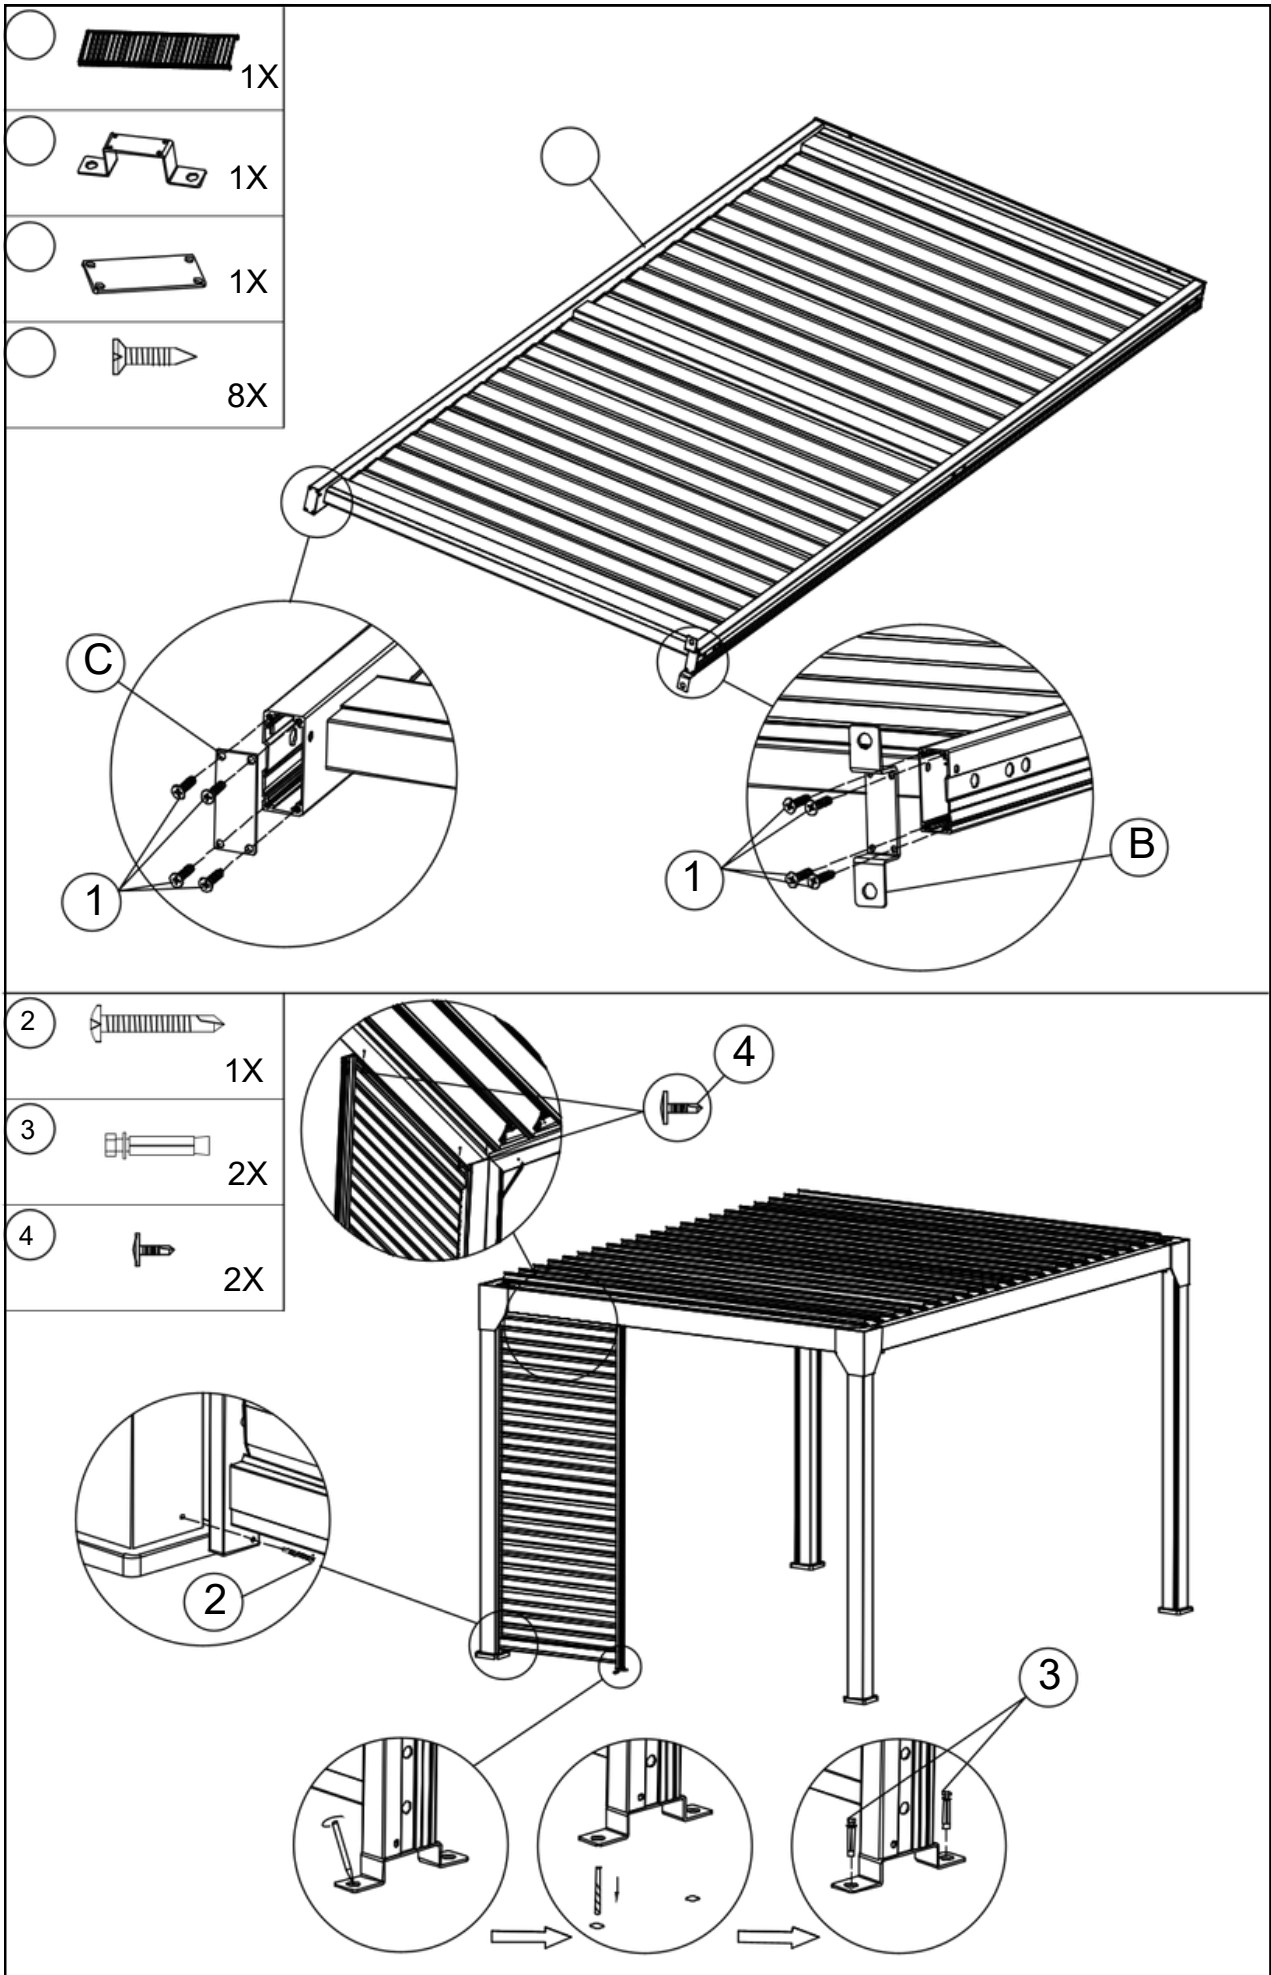

- We recommend regularly cleaning your product by removing leaves, branches, or other elements that could impair its proper functioning.
- Your product can be cleaned with soapy water.
- Never use a high-pressure cleaner, corrosive products, or solvents.

In the event that a component is missing, damaged, or if you have any doubts, please contact Green Outside customer service:
